

QWidget

```
classDiagram
    class QWidget
    class CreateUtil {
        +CreateUtil()
    }
    QWidget <|-- CreateUtil
```

The diagram shows a class hierarchy. At the top is a class box for 'QWidget' with three empty compartments. Below it is a class box for 'CreateUtil' with three compartments: the top contains 'CreateUtil', the middle is empty, and the bottom contains '+ CreateUtil()'. A blue arrow with an open triangle head points from the 'CreateUtil' box up to the 'QWidget' box, indicating that 'CreateUtil' inherits from 'QWidget'.

CreateUtil

+ CreateUtil()
